

ATTENTION: **All CWA Members**

Notice From The Election Committee

In an effort to be as well prepared as possible when the time comes that the Local is authorized to conduct elections, it is important that the Local have correct mailing addresses on file for all members. The Election Committee wants to make every effort to ensure that all members get a ballot sent to their home address once approval to conduct elections is received. If you have not received *The Communicator* or any form of mail from the Local in recent months, have recently moved, or have concerns that your address on file is not accurate, please call Local 6143 at 210-224-6143 to verify or correct the records (*Note*: callers should be prepared to verify themselves as a member with SSN). Taking these proactive measures will help assure a smooth election process.

The Election Committee thanks you for your attention to this important matter.
